

Town of Meenon Comprehensive Plan Overview

Beginning in 2021, the Town of Meenon, Wisconsin began the process of developing its first-ever Comprehensive Plan for the town. The Town of Meenon's Comprehensive Plan serves as the town's primary policy document that helps the community with understanding its growth, changes, and challenges, and opportunities. This document also expresses the desired types, locations, and development appearances within the town.

This plan represents an expression of the community's vision for the desired future and includes identified strategies which can provide guidance to support coordinated efforts to advance the town's vision. Ensuring that a positive, safe, and enjoyable environment is key when addressing growth, changes, challenges, and opportunities throughout the community. By relying upon this document, the community can leverage its recommendations, which are designed to reinforce the community's vision, to support physical design, enhance economic activity, social well-being, and a sound environmental existence.

This document does not serve as a zoning map or a zoning ordinance, although have been identified in this plan as being available planning tools towards supporting the implementation of this planning document. In summary, this Comprehensive Plan contains the following items and information regarding:

- Meenon's desired **vision, goals, objectives**, and their associated **strategies** and **policies** to support future investments, development, and growth; including their identified **issues** to address and **opportunities** to benefit from.
- A collection of **maps, graphics, tables, and figures** were developed to capture the town's current **land use, future land use, zoning, functional classification**, the **town's community facilities**, and other helpful information regarding the uniqueness surrounding the Town of Meenon.
- The Town's **demographics** (i.e., population, economy); **housing; transportation; utilities** and **community facilities; natural, cultural, and agricultural resources; economic development; intergovernmental cooperation; land use; and implementation** (Per Chapter 66.1001 - Wisconsin Legislature).
